

AUTODESK® AUTOCAD®

CERTIFIED PROFESSIONAL EXAM

Enhance your ability to create breathtaking designs, increase your skills documentation, and boost your productivity by certifying at the pro level with AutoCAD®.

Becoming an Autodesk Certified Professional can lead to accelerated career development, improved capacity, and enhanced credibility. In short, it can help get you where you want to go.

PREPARE FOR SUCCESS

Your preparation for the exam will be critical. As Autodesk's exclusive provider for the Certified Professional program, Certiport makes Autodesk AutoCAD® certification easier with a powerful three-step pathway:

1. LEARN

Obtain the skills you need to use Autodesk AutoCAD® at a professional level. Certiport offers content-rich textbooks, online courseware, video resources, and more.

2. PRACTICE

Refine your skills with interactive exam-preparation tools and practice tests. Build the confidence you need to take the Autodesk AutoCAD® Certified Professional Exam.

3. CERTIFY

Validate your skills by passing the exam and receiving your official certificate.

RECOMMENDED EXPERIENCE LEVELS

There's no substitute for training and hands-on experience as you prepare for your Certified Professional exam. Certiport recommends the following. For comparison, we've also included information for Autodesk Certified User.

Certified User

Training — AutoCAD® 2011–2015 course (or equivalent)

Hands-on Experience — 50 hours

Certified Professional

Training — AutoCAD® 2015 course (or equivalent)

Hands-on Experience — 400 hours

THE TIME IS NOW

As an Autodesk AutoCAD® Certified Professional, you'll enjoy several career-boosting benefits:

- Prove your skill level with an official, industry-standard credential recognized by employers
- Display the Autodesk Certified logo and your certificate
- Include your name in the database of Autodesk Certified Professionals

WHAT'S ON THE EXAM?

Refer to the chart on this page for a list of skills covered by the exam.

AUTODESK CERTIFICATION

The Autodesk Certified Professional exam contains 35 questions. The majority of these require you to use AutoCAD® to create or modify a data file, and then type your answer into an input box. Other question types include multiple choice, matching, and point-and-click. You will have a two-hour time limit (in some countries, the time limit may be extended).

The chart below shows you the skills you will be expected to demonstrate on the Pro exam, as compared with those on the User exam. Keep in mind that some of the skills listed may not be tested on your specific certification exam; however, you should be prepared to demonstrate your mastery of them all.
